INFORMATION DISCLOSURE STATEMENT

Copies of the references listed on the attached form PTO-1449 are enclosed. A copy of a communication from a foreign patent office in a counterpart application is also enclosed. Please note that a non-English reference was provided with the foreign patent office communication, and Applicant is, therefore, enclosing an English abstract of this document.

The references listed therein, while possibly of some relevance, are not necessarily considered to teach or suggest any aspect of the invention described and claimed in the above-identified Patent Application. Applicant(s) hereby expressly reserves the right to swear behind the effective dates of any of the references. Applicant(s) further reserves the right to question the relevance, materiality, and/or prior art status of the references in whole, in part, or in combination subsequent to the filing of this statement. This statement is also not to be construed as a representation that a search has or has not been conducted or that no better art exists. Rather, this information disclosure statement discloses references of which the associated individuals are aware.

In considering the references set forth below, it may be noted by the Examiner that certain of the references may contain markings, underlinings, and/or other notations. These markings, underlinings, and/or other notations are not to be construed as drawing the Examiner's attention either to selected parts or away from other parts of the references. Any such markings were either present on the copies of the references obtained by the associated individuals or were made thereon during the study of the references by the associated individuals.
